

ProShield®

Vinyl-Clad Wood Pocket Replacement Windows

Want More®

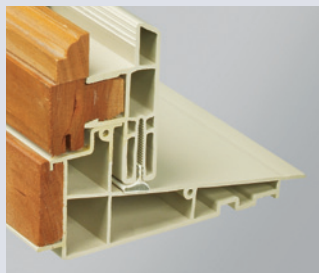

Ease of Operation

An easy-to-operate compression jamb allows for effortless operation for years in the future. The units tilt in for cleaning. Full perimeter weather stripping surrounds the jamb for thermal efficiency and minimal air infiltration.

Fusion-Welded Exterior Corners

Extruded vinyl exterior frame and sash corners are fusion-welded and mitered for increased strength and a clean finished look.

Multi-Chambered Construction For Strength

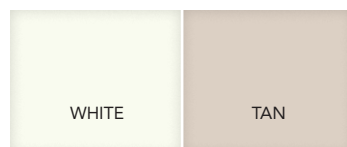

ProShield windows feature a thick, multi-chambered frame design that improves the window's strength and thermal performance.

ProShield® Vinyl-Clad Wood Pocket Replacement Windows

For those looking for worry-free beauty in their home, we present our ProShield line of vinyl-clad wood pocket windows. With natural wood interiors, and virtually maintenance-free vinyl exteriors, our windows are custom made to your specifications. ProShield Pocket windows are designed to fit into window frames without disturbing the existing walls, trim, drywall or siding. So, increase your home's efficiency while maintaining its current appeal with ProShield Pocket Double-Hung windows today.

Colors with Maintenance-Free Appeal

ProShield's tough vinyl extrusions won't blister, peel or fade and are available in two maintenance-free colors, White or Tan.

Exterior colors shown may not be actual representations. Actual color samples are available upon request.

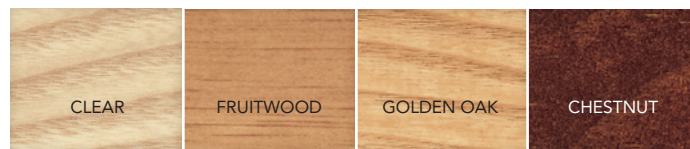

Interior Wood Choices That Complement Your Home

The natural wood interiors on ProShield windows will complement the cabinets, furniture, floors and trim throughout your home. Optional stained, primed or pre-finished white latex paint interiors are also available.

Interior Finish Choices

The color and grain of natural wood varies. Color and grain shown may not be actual representations. Samples are available upon request.

Hardware

Designed to operate smoothly and securely, ProShield window hardware features all metal construction and is available in White, Copper or Bright Brass.

Tilt Sash Lock

Tilt Sash Lift

DOUBLE-HUNG TILT

TILT PICTURE

As a proud ENERGY STAR partner, we ensure our products are rated, certified and labeled for U-Value and Solar Heat Gain by the National Fenestration Rating Council (NFRC).

EasyCare Glass is an invisible, permanent coating that resists dirt and causes water to "sheet off" rather than "cling" to a glass surface. Water spreads and evaporates quickly to reduce spotting and make cleaning glass easier. Standard on Zo-e-shield™ options.

Our unique Real Warm Edge Flexible Spacer between the panes of glass insulates the edge of the glass better to help improve thermal performance and reduce condensation.

Low E² coatings filter UV rays to protect furnishings from fading while also insulating the home in Winter and Summer.

PROSHIELD R/U VALUES

ENERGY SAVINGS MORE LESS	ZO•E-SHIELD 6
	<ul style="list-style-type: none"> • One pane of glass and one laminated pane • One EasyCare surface • One multi-layer Low E coating • One inert gas-filled insulating airspace • One Real Warm Edge Spacer

Grille Choices For A Custom Look

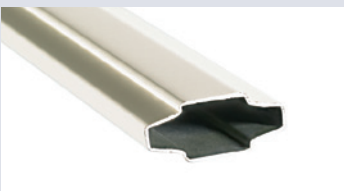

Give your home its own distinctive look with a choice of grilles between the glass or removable wood perimeter grilles in an array of shapes and sizes, including specialty and custom grille patterns.

7/8" Wood Perimeter Bar

5/8" Flat Grilles Between the Glass

11/16" Sculptured Grilles Between the Glass

Zo-e-shield is unlike any glass system in the world. It delivers the most energy efficient result you can achieve from the newest glazing technologies. And that means unparalleled performance in lowering energy use and utility bills, preventing sun damage and protecting the environment. Our exclusive Zo-e-shield glazing system features multiple layers of Low E coatings that reflect heat and optimize home heating/cooling systems. To see how you can save up to 30% on your energy bills, go to zoeshield.com and click on the "Save Money" icon.
