

**SOLID WOOD  
LIFT & SLIDE**

# SOLID WOOD LIFT & SLIDE

For 2009 Panda Windows & Doors is introducing its **NEW Solid Wood Lift & Slide Door System**. Designed for the luxury market this new product is a beautiful compliment to any design that utilizes the warmth and elegance of wood. As with all of Panda's products these doors are made to order and offer a large variety of options to meet the needs of the discerning client.

## Product Information

- Engineered solid hard wood core for increased strength and longevity. This also greatly minimizes the chance of "twisting" which can occur with larger doors.
- Wrapped with a ¼ inch wood veneer available in standard Pine, Mahogany or Vertical Grain Douglas Fir. Other alternative or exotic species available upon request.
- A unique design of aluminum extrusions set in the wheel and glazing cavities for increased strength.
- The finest European made operating mechanisms and wheel carriages are used to ensure smooth operation and long life.
- There are a variety of hardware styles and finishes available.
- Panel sizes can be in excess of 70 sq ft. Maximum panel sizes can be as wide as 10 feet and as tall as 13 feet (standard warranty does not apply).
- Can fit any type glass up to 1 inch thick (Clear LowE Tempered IG is standard).
- Tracks are recessed into the flooring leaving only a 3/16 inch rail exposed for a clean, even transition from the interior to exterior living spaces.
- Optional kick-plate available in adjustable heights.
