WEATHER SHIELD.
WINDOWS & DOORS

WELCOME

WINDOWS SHOWN:

Configuration: Push Out Casement

Exterior Color: Black Poly

Hardware Finish: Black

Glass: Insulated Low-E with Rain Glass

When Edward Lee Schield designed his first window in 1955, he set into motion a company built around an inventive spirit. His enthusiasm for innovation defines Weather Shield to this day. After more than 60 years and 33 patents, Weather Shield remains faithfully focused on creating something better and purposeful.

Our quest to bring you the latest and greatest products is firmly grounded in serving the needs of our customers. We're still a family-owned business that believes in listening closely to the people who specify, buy and install our windows and doors. Their input is critical as we strive to improve and perfect every aspect of product design and performance.

All of our products benefit from the highest quality hardware available. It's our way of honoring our founder's vision of combining old-world craftsmanship with innovative design and materials — a philosophy we embrace down to every last detail. Our hardware collection

features beautiful, elegant pieces that complement the look of any door or window, while also offering crucial features to enhance safety, energy efficiency, and design.

WHY WEATHER SHIELD?

WINDOWS & DOORS SHOWN:

Configuration: Sliding Patio Door, Awning
& Direct Set Windows

Interior Finish: Black Poly

Hardware Finish: Black

5 REASONS TO CONSIDER WEATHER SHIELD

With hundreds of window and door manufacturers to choose from, it can be difficult to distinguish one company from another. We thought it might be helpful to share a few of the things that set Weather Shield apart from the rest.

1 Continuous Innovation

At Weather Shield, we never stop searching for ways to improve both our products and our processes. The goal of discovering new and innovative solutions has always been part of our DNA. That's why we have our own dedicated Research and Development Center and the largest onsite test lab in the industry. Not a day goes by when we aren't working on building a better product.

2 Best-In-Class Warranty

At Weather Shield, we do more than talk about our dedication to craftsmanship and quality materials. We back our products with a warranty against defects in material or workmanship for a period of 20 years, and against wood rot on all clad products for 30 years*. So you can be confident you're getting an outstanding product from a trustworthy company.

3 Design Flexibility

When you design with Weather Shield, you have options. Our casements alone allow you to create more than 6,000,000 different configurations.

Choose from an impressive array of wood interiors and finishes, along with a myriad of exterior colors. We also offer some of the industry's largest expanses of glass for framing spectacular views. Whatever the style, whatever the size, nobody gives you more choices than Weather Shield.

4 Energy Efficiency Without Sacrifice

Through our innovative use of materials and design, we're able to offer industrial strength efficiency with refined appearance. We're very deliberate in our use of energy efficient materials to drive performance where it matters most. We're proud to offer an extensive number of beautifully designed ENERGY STAR® rated products.

5 Family Owned and Operated

For more than 60 years, Weather Shield has remained a family-owned and operated company. That allows us the freedom to take a long-term perspective and keep our focus on serving customer needs rather than a singular focus of achieving quarterly financial targets.

As we've grown to become a respected national brand, we've seen technology and materials evolve. But our core values have never changed. Today, we remain dedicated to building long-term relationships and crafting innovative products that meet the needs of our customers.

The image is a composite. The left side shows a blurred interior of a modern home with a large sliding patio door that looks out onto a green lawn. In the foreground, there are blue armchairs and a wooden cabinet. The right side is a close-up of the sliding door hardware, showing a sleek, silver-colored handle and a black track. The track has some text and logos on it.
